-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE THREE MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

In accordance with M.P.E.P. §724, applicants will be permitted to file a petition to expunge the above materials, as provided according to MEP §724.04.

The serial numbers for the co-pending applications must be inserted into paragraphs [0023] and [0036] and [0038].

On page 7, line 4, after "coupled", -to- must be inserted.

Claim 16 is objected to, as no clear antecedent basis is seen for "the fabric" in line 2 of the claim.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 15, 20, 21, 23, are rejected under 35 U.S.C. 102(e) as being anticipated by Chen.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3673

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-14, 16-19, 22, 24-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chen, teaching applicant's basic device, but not a fabric enclosure, mattress and other conventional features of bassinets.

It would have been obvious to one ordinarily skilled in the art at the time the invention was made to have used a fabric enclosure with Chen's bassinet, because such fabric enclosures are conventionally used to retain baby in the bassinet.

Wajnsztejn (note strap 10, rod, guide 8, 9), Kurlander et al, Stang (note Fig. 3) Koch (note Fig. 2) Whitley et al (note Fig. 2), Parliaman (note Figs. 1, 3) are cited as relevant art.
